Subject: Olive Oil Labeling

Dear Ms Shorter:

I urge you to support the growing California olive oil industry by creating Federal standards for the labeling of olive oil, particularly extra virgin. It is very difficult for us, as growers and bottlers, to explain the difference in the price of our product over the imports. If, what was in the bottle was the same product, the pricing on imports would be much the same as ours. The public needs to know what they are buying, and they can only do that if the labeling is standardized.

Thank you for this opportunity to comment on this matter,
Sincerely,
Mary Brosius
